

CITY OF ELKO

Building Department

The new year is flying by! As we move into February we want to notify all interested parties of our upcoming free class on 'Mixed-Use Buildings and Egress' led by instructor Chris Kimball of WC3. This class will provide participants excellent information on the IEBC (International Existing Building Code). Previously Chapter 34 in the IBC. If you are interested in participating please rsvp to ashleyg@wc-3.com.

The date will be February 28th and held at the Elko City Council Chambers. Contact the building department for any further questions. Hope to see you all there!

Mixed-Use Buildings and Egress

COURSE DESCRIPTION

The 2015 International Building Code (IBC) no longer has provisions to address existing buildings, rather it now refers to the 2015 International Existing Building Code (IEBC) for existing building provisions. Soon the City of Elko will be enforcing the 2015 IEBC and the intent of this seminar is to provide an introduction to the IEBC. It clarifies how the code is laid out and provides specific guidelines for how to use the book. Specific triggers for mandatory structural, fire safety, and accessibility triggers will be discussed. Requirements for repairs, alterations, additions, moved structures and historic structures will also be addressed.

Instructor: Chris Kimball, SE, MCP, CBO

Chris has more than 17 years of experience in the design, construction and building safety industries. He is a licensed structural engineer and an ICC Master Code Professional in addition to being an ICC certified building official, fire code official, combination plans examiner, and combination inspector. He has performed plan reviews for thousands of projects throughout the United States and is frequently asked to provide code training to design professionals, building officials, and contractor organizations.

WEDNESDAY
February 28, 2018
 Elko City Council Chambers
 1751 College Avenue
 Elko, NV 89801
