ADDENDUM #1
CHILTON CENTENNIAL TOWER CONSTRUCTION

June 9, 2017

This addendum addresses additions, changes, and clarifications to the Contract documents and Contract Drawings for the City of Elko, Chilton Centennial Tower Construction.

Clarifications:

1 – Fees for construction permits will be waived by the City of Elko. Landfill fees for disposal of any construction materials will NOT be waived.

2 – Attached to this addendum, please find a lighting specification sheet that details the required lighting for the lighted lettering “ELKO” on the tower.

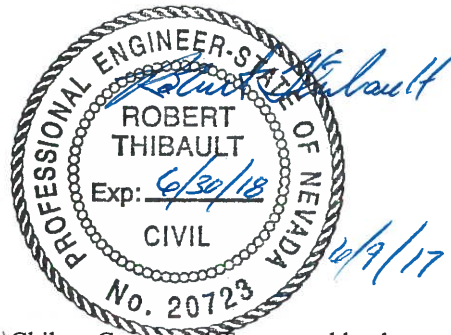

3 – Sterling Crane has expressed an interest in donating some crane services to this project. Use of their services is NOT required for this bid. If a contractor decides to take advantage of this generous offer, do not forget to list them as a subcontractor on your 1% and or 5% lists as appropriate. If interested in this offer, you may contact;

Bob Demars
Sterling Crane
Crane and Rigging Supervisor
Cell: 775-388-4958

4 – A review of NAC 624 suggests that this project could be constructed by a contractor holding either a C-6 or a C-14 license classification. This may not be a complete list. Contractors holding other licenses may inquire about that particular license. As this is a unique project, final decision of appropriate licensure may require input from the State Contractors Board.

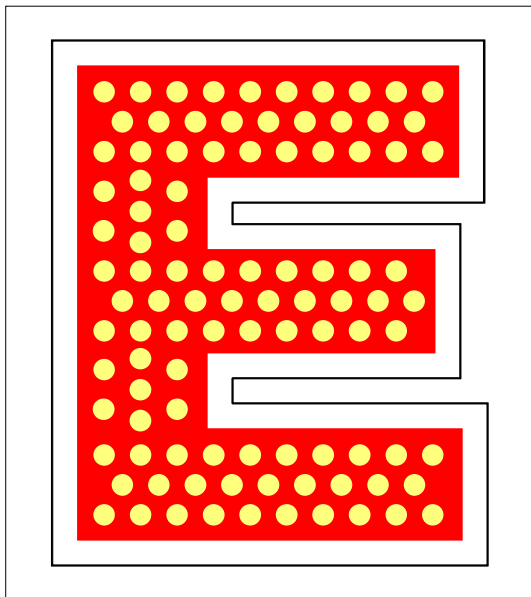

Thank you for your interest in bidding this project.

Bob Thibault, P.E., P.L.S.
City of Elko
Civil Engineer
