

**REQUEST FOR STATEMENTS OF QUALIFICATIONS AND EXPERIENCE FOR
ENGINEERING SERVICES FOR THE ELKO REGIONAL AIRPORT**

QUESTION/ANSWER

November 29, 2018

Question: *In preparing our Statement of Qualifications for Airport Engineering Services for the City of Elko and Elko Regional Airport, Armstrong Consultants request clarification on Section V. Para. A “Statements of Qualifications must be **no more than 15 pages (front and back)**,”... Is the page restriction 15 pages with content on both sides (front and back) for a maximum of 30 pages of content, or no more than 15 pages of content total?*

Also, please clarify you will be using AC 150/5100-14E with regards to the selection process. I believe you have a typo error in referencing AC 150/5100-14D.

Answer: – if you used the front and back of 15 pages it would be 30 pages of content and that is acceptable. It should be AC **150/5100-14E**.

Question: *Regarding the Request for Statements of Qualifications and Experience for **Engineering Services for the Elko Regional Airport**, can you please confirm that, in addition to a cover letter, a graphical front cover with photos, date, SOQ title, and firm logo would be excluded from the page limit?*

Answer: Yes, those items are excluded from the 15 page limit.
