Subject: Marijuana Ban

February 12, 2018

To: Mayor and City Council
City of Elko

Fr: Rod Moore

Re: Public Hearing on Ban and Prohibition of Marijuana

Dear Mayor and City council,

I am a medical marijuana patient and totally support a medical dispensary in Elko. I'm 71 years old suffer from Skin Cancer and severe vertigo, severe pain and also a disabled veteran.

The City of Elko is overstepping the will of the public with this decision, the people of Nevada voted to legalize marijuana and yet the City is either ignoring us, just don't care or does not understand the benefits to people who have been prescribed marijuana by a licensed Doctor. But, you are making it impossible for us to get our medication unless we are able to make an 8 hour ride to Reno.

If you have any compassion I would ask to consider and approve a Medical Marijuana Dispensary in Elko.

I would ask you for all those families and friends that are watching loved ones whither away from such a life impacting disease to please approve Medical Marijuana Dispensary in your city. Think of our citizens, our friends and our family members that need your help.

Please APPROVE the use of Medical Marijuana Dispensary it's the right thing for compassionate true leaders to do for their community.

Signed

Rod Moore
